How Many Points Is Your Job Worth?
The Staff Gets Its Own Knurowski Report

The staff members in the 'apos'trophe are working on projects that would be evaluated at the end of the term based on how many points they have earned. Each project is worth a certain number of points, and the total points earned will determine the final grade for each staff member. The points system is designed to encourage creativity and hard work, and to provide a fair way of assessing the contributions of each member of the staff.

Kirkpatrick Controversy Stirs Smith

In Hub City

U.S. Rep. Burt A. Smith (D-Minn.) has called for the resignation of Indian Head, Md., Superior Court Judge John C. Kirkpatrick, who has been accused of sexual harassment and assault.

The Kirkpatrick case has sparked a controversy in the Denver area and has drawn attention to the question of whether the courts should be required to have procedures for dealing with such allegations. If such a case were to come to court, a judge would be required to make a decision on the matter.

In the Kirkpatrick case, the district attorney is seeking to have the judge removed from office. A hearing has been scheduled to determine whether he should be disqualified from the bench.

The issue of sexual harassment in the workplace has become a growing concern in recent years, and the Kirkpatrick case has raised questions about the adequacy of existing procedures for dealing with such allegations.

The Kirkpatrick case has been widely publicized and has sparked a debate about the adequacy of existing procedures for dealing with sexual harassment in the workplace. The Kirkpatrick case has also raised questions about the appropriateness of sexual harassment in the workplace.

**Philip Glass Ensemble at The Fine Arts Center**

By Neil Hamburger and Tim Gane

Thursday night witnessed a notable avant-garde music performance at The Fine Arts Center. The Philharmonic Society of New England presented a program featuring the Philip Glass Ensemble, conducted by the maestro himself.

The performance was the first of a series of concerts that will take place in the coming months. The ensemble, consisting of Glass and a group of top New York City musicians, delivered a program that was both innovative and complex.

The ensemble began with a composition that explored the boundaries of traditional music. The piece was a study in dissonance and rhythm, pushing the boundaries of what is considered music.

**Film & Photography in '83: Fresh Chemistry**

By John Smith

In an era of rapidly changing technology, the field of film and photography is constantly evolving. The year 1983 saw a number of significant developments in these fields, which have had a profound impact on the way we create and consume images.

One of the most notable developments was the introduction of digital photography. This technology revolutionized the way photographs are created, allowing for instant editing and manipulation. The digital revolution also made photography more accessible to the general public.

Another significant development was the rise of video art. Artists began to explore the medium of video as a means of expression, creating works that combine music, dance, and visual imagery.

Overall, 1983 was a year of change and innovation in film and photography. As we look to the future, it is clear that these fields will continue to evolve, with new technologies and artistic approaches shaping the way we create and experience images.
